Barbee's drug store.

— DO NOT LOSE THE —

Opportunity of Your Life

Which you will do if you do not consult

DR. MATTHEZ,Within a short time. After
one month's active practice his
stay in Roanoke will soon be
brought to a close. Do not
allow self-interested persons to
misguide you by directing you
to some one else or by telling
you Dr. Matthez' charges are
too high, for that is a mistake.
If your doctor has to treat you
for one month or more it nat-
urally costs more than as
though he visited you but
once. With every person
who visits Dr. Matthez
he makes an examina-
tion, finding out just what
is the matter with the eyes
—what is required in the way
of Glasses, and all about the
case—and this costs nothing.
If you then are convinced that
you want his service and
glasses, all right, if not, it has
cost you nothing. Could any-
thing be more fair than that?
Look at his indorsements from
home and abroad. Can you
doubt them? If you doubt
them go to his office and see the
originals, and if you then doubt
them, you are like the man
Josh Billings wrote of, who
was so skeptical that he
wouldn't touch a cast iron lion
for fear it would bite him. "Ig-
norance was what was the
matter of him." It isn't once
in a lifetime that one of the
same standing as Dr. Matthez
visits the interior profession-
ally—he can't afford it. Go at
once without delay, and get
glasses to make you see as as
in youth and last you many
years.Don't put on glasses unless
there is actual need for them.

Don't be fitted by guess work.

More eyes are injured and
ruined at the hands of inexpe-
rienced persons and haphazard
adjustment of glasses than
from or by any other known
cause.Which would you rather do,
pay out a few dollars at inter-
vals of every few months, get-
ting cheap ordinary frames and
glasses, changing continually,
increasing the defect of your
vision; or in the beginning
have the eyes exhaustively ex-
amined, guaranteed adjust-
ment, and the work made to
your order?Facts to be remembered in
this connection.Dr. Matthez does not treat
medically.Oculism and optics are as
separate as drug selling and
medical treatment.Optics is a science; specta-
cle selling is not.Dr. Matthez is the possessor of twenty
years practice in his branch.What is more important than perfect
sight?Are you following the best methods
towards preserving it?Can you read continuously without
the eyes becoming tired?Do you see with one eye as well as
with the other? Try first one, then the
other eye without the glasses on, then
put on your spectacles and try your eyes
separately. If there is no disease they
should be alike.Do you use one pair of glasses for
close use and far use? If you do you
are ruining your eyes.Are you obliged to change your spec-
tacles often? If so you are doing wrong.Do your frames fit you? If not the
glasses become decentered causing un-
necessary annoyance and injury.OFFICE: Room 20 Ponce de Leon Hotel.

important item in connection with your stationery is
the impression it leaves. It may reveal a slovenly
disposition if it is not carefully and tastily executed.
We are very careful as to the
wants and needs of a customer,
and watch faithfully all details
in connection with an order, large or small. Our
facilities are almost ideal and make it comparatively
easy for us to do so. Perhaps this will explain why
